```
def get_dropbox_folder_location():
    """
    Try to locate the Dropbox folder.
    Returns: Path to the current Dropbox folder
    """
```

**Target Task**

**① Retrieval**

**Extractor**

**Repository**

**Summarizer**

Retained

Discarded

**② Task-Aware Extraction**

**② Depend.-Aware Summarization**

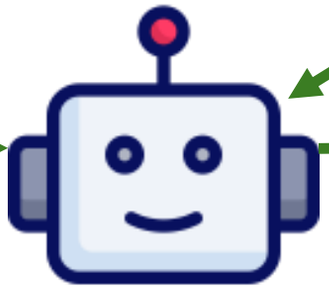

```
def get_icloud_folder_location():
    # ...
    if not os.path.isdir(icloud_home):
        error(constants
          .ERROR_UNABLE_TO_FIND_STORAGE.format
          (provider="iCloud Drive"))
    # ...
```

**Similar Code**

```
def error(message):
    # generated summarization
    """
    Throw an error with the given message and exit.
    """
    # code
    # ...
```

**Dependent Code**

**③Generation**

**Generator**

```
def get_dropbox_folder_location():
    # ...
    if not dropbox_info_path:
        error(constants
.ERROR_UNABLE_TO_FIND_STORAGE
.format(provider="Dropbox"))
    # ...
```

**Output**
